APPENDIX B: CLEAN COPY OF PENDING CLAIMS (UNOFFICIAL)

133. A method of inhibiting cancer comprising:
- (a) isolating cancer cells from a host;
 - (b) rendering said cancer cells inactive;
 - (c) reintroducing said inactivated cancer cells into said host in a pharmaceutical composition, said pharmaceutical composition further comprising an insect cell composition.
134. The method of claim 133, wherein said insect cell composition further comprises an immunomodulator.
135. The method of claim 133, wherein said immunomodulator is IFN β
137. The method of claim 133, wherein said cancer is localized.
138. The method of claim 133, wherein said cancer is metastatic.
139. The method of claim 140, wherein said exogenous DNA is a baculovirus expression vector.
140. The method of claim 139, wherein said insect cell composition comprises an exogenous DNA.
141. The method of claim 139, wherein said exogenous DNA encodes an immunomodulator.
142. The method of claim 141, wherein said immunomodulator is interferon β .
